

**RE: Lafourche Parish Water District No. 1  
Public Service Announcement # 012824  
Boil Water Advisory Update  
Released as of Sunday, January 28, 2024, (Noon)**

**Social Media Disclaimer:**

If you are viewing this Public Service Announcement on Social Media, you are urged to visit [www.lpwdla.org](http://www.lpwdla.org) to confirm it is accurate and up to date.

**For Immediate Release:**

The Lafourche Parish Water District No. 1's **BOIL WATER ADVISORY** remains in effect for portions of South Lafourche. It includes the following communities serviced by the District:

- on both sides of Bayou Lafourche between the East 28<sup>th</sup> St. Bridge (i.e., McDonald's Bridge in Cut Off) and the Lafourche-Jefferson parish line

Investigative samples analyzed by the Louisiana Department of Health indicate the Boil Water Advisory can be **LIFTED** for the following communities serviced by the District:

- on both sides of Bayou Lafourche between the Hwy 654 Bridge (Gheens Bridge) and the East 28<sup>th</sup> St Bridge (McDonald's Bridge in Cut Off)

In addition, the water conservation notice has been **LIFTED** for all areas of the Parish. Your cooperation has been greatly appreciated.

**Additional Information:**

It is recommended that all customers who are included in the Boil Water Advisory disinfect their water before consuming it, making ice, brushing teeth, using it for food preparation (including fountain drinks), and for rinsing food by the following means:

Boil water for one (1) full minute in a clean container. The one-minute starts after the water has been brought to a rolling boil. (The flat taste can be eliminated by shaking the water in a clean bottle, pouring it from one clean container to another, or by adding a small pinch of salt to each quart of water that is boiled.)

Again, please be sure to disinfect your own water prior to consumption until you have been advised otherwise.

The Lafourche Parish Water District will rescind this Boil Advisory upon notification from the Louisiana Department of Health– Office of Public Health after additional samples collected from our water supply have shown our water to be safe.

**Updates:**

Customers should stay tuned to News Media outlets and monitor the Lafourche Parish Water District's Website at [www.lpwdla.org](http://www.lpwdla.org) for further updates and additional information.

**News Media Note:**

Please repeat this announcement several times a day until further notice and advise the public that this information, along with future updates will be posted on the Lafourche Parish Water District's Website at [www.lpwdla.org](http://www.lpwdla.org).
